### Services Requested

#### Category 1: Data Transmission and/or Internet Access

Type	Function	Function Other Description	Number Entities	Quantity	Unit	Min Capacity	Max Capacity	Installation and Initial Configuration?	Associated RFP
Data Transmission and/or Internet Access	Internet Access and Data Transmission Service		1	1	Each	1 Gbps	10 Gbps	Yes	<a href="#">View RFP Documents</a>

#### Category One Narrative

Sno-Isle Libraries seek 1 G synchronous upload/download fiber Internet Service (or equivalent) with a direct connection to the Camano Island branch that is currently underserved by its existing cable internet service. Bids that include non-equivalent circuit types, alternative architectures or special construction as defined in the E-rate program will be disqualified. Bids should include all available speeds listed in the attached bid format spreadsheet or may be disqualified.

The Library may choose to maintain or upgrade circuit speeds as needed during the contract period and may add additional locations in the event of branch openings, relocations, or other circumstances. The potential speed range over the term of the contract, could be as listed below and upgrades would be made via service/change orders or amendments to the contract.

Internet Access: 1 G to 10 Gb (synchronous upload/download speeds)

See uploaded RFP and bid format spreadsheet for more information on this bidding opportunity. The RFP, bid format spreadsheet and any Q&A will also be posted on the Library's website at: <https://www.sno-isle.org/vendors/>.

There are no Services Requested For Category 2
