

## **Addendum 1**

# **TREE TRIMMING & REMOVAL SERVICES UNIT PRICE**

## **CONTRACT | INVITATION TO BID NO. 2023.02.08**

**February 23, 2023**

### **QUESTIONS AND ANSWERS**

Q: Is there any Aerial work expected on these trees such as climbing or Aerial equipment or bringing trees down in sections?

A: Sno-Isle Libraries will not be advising the Contractor on how to remove trees. The Contractor must know and understand how and what equipment to use to remove trees properly and safely.

Q: Do you have more photos of the expected trees needing to be worked on?

A: At this time, there are no trees that need to be removed. What is attached to the ITB package is a sample project and not actual work.
